

✅ 🌀 지브리 배경 중심 스타일 고정 프롬프트

Studio Ghibli inspired hand-drawn animation style similar to Howl's Moving Castle (2004),

lush natural landscape with layered painterly brush strokes, vibrant but slightly softened color palette,

rich green hills with yellow highlights, scattered rocks with hand-painted texture,

small wildflowers subtly integrated into grass,

bright blue sky with soft cumulus clouds, gentle atmospheric perspective creating depth,

sunlit environment with natural daylight, soft shadow edges (no harsh contrast),

organic whimsical architecture in the distance, slightly asymmetrical design,

hand-drawn mechanical details blended with fantasy elements,

thin but expressive line art, slightly textured outlines,

traditional cel animation shading with subtle color transitions,

no digital gloss, no 3D rendering, no photorealism,

warm nostalgic tone, cinematic wide composition,

visible brush texture in grass and sky,

natural wind-swept movement implied in environment

🔒 스타일 붕괴 방지 네거티브 프롬프트

no hyper realism, no CGI lighting, no ultra sharp digital edges,

no modern anime neon colors, no plastic shading,

no heavy black outlines, no dramatic cinematic dark grading,

no realistic photography look

📷 배경 중심 장면용 확장 옵션 (풍경 강조 시 추가)

wide angle composition, environmental storytelling focus,

foreground-middle-background depth layering,

soft aerial perspective haze in distance,

natural sunlight diffusion across terrain
